1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-25, drawn to a fiber and a yarn, classified in class 428, subclass 376.
 - II. Claims 26-28, drawn to a method of making a fiber, classified in class 264 subclass 53+.
2. The inventions are distinct, each from the other because:
3. Inventions group I and group II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made by another materially different method such as spinning, extruding, impregnating, storing, freezing, heating, terminating.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
5. During a telephone conversation with Sara Current on 5/6/2004 a provisional election was made without traverse to prosecute the invention of group I, claims 1-25. Affirmation of this election must be made by applicant in replying to this Office action. Claims 26-28 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

6. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Sara Current on 5/12/04.

IN THE CLAIMS:

Claims 26-28 have been canceled.

7. The following is an examiner's statement of reasons for allowance: there is no teaching or suggestion of a fiber or yarn having a length, cross-section, closed cell, and diameter ratio as recited in claims 1 and 13.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to N Edwards whose telephone number is 571-272-1521. The examiner can normally be reached on Monday-Friday from 6:00am to 2:00pm.
